DESIGN INNOVATION

EASY TO CONTROL

The Zipscreen difference

Zipscreen is Australian designed and manufactured and features the latest in technological innovation – ensuring the finest outdoor shade solution.

Your custom designed blinds can be made in widths up to 5.8 metres or an impressive 7 metres with Zipscreen Extreme, offering you an external solution to fit almost any area.

One action Ultra-Lock

Exclusive to Zipscreen, the patented Ultra-Lock is a hidden locking mechanism that integrates into the side channel of the system. The result? A secure and tensioned blind with an ultra-smooth taut fabric finish.

Customised headbox configuration

Zipscreen's head boxes are manufactured from high-quality aluminium featuring a modern, square profile. Take advantage of the versatile installation options offering either a full/semi-enclosed cassette or fascia configuration.

Hidden fabric retention

Concealed within the channels, z-LOCK™ securely fastens the fabric in position creating a strong, streamlined finish. With precision integration, the zip-guided system ensures zero gaps between the fabric and channel while ensuring an effortless operation.

open my shades”

Zipscreen control options

MWi | **Manual**

Control your Zipscreen manually, using either a cost-effective spring or crank solution. Simply open or close by hand using the weight bar or by winding the detachable crank handle.

Motorised

Power your Zipscreen with the premium Automate FT motor. Enjoy effortless and convenient operation with the simple touch of a button or handsfree voice control.
